In the account for the year 1811-12, an entry of Nirup of 6th day of Bhadrapada Bahula of the year Prajotpatti (8th September 1811) is given. From this it is seen that 5 Candies of Sandal-wood was being supplied to the temple from a prior date (exact date not given).

A draft copy of this Nirup is available in the records. It is in Maharatti language. A Kannada translation of this ~~Nirup~~ is herewith submitted for perusal.

This Nirup throws light on a certain extent. In this, mention is made of the requests of one Mangalore Thimmappiah at the Huzur for a Sannad regarding the Cash and Sandal-wood grants that were in force and on this the said Nirup seems to have been issued by the late H. H.

A copy of the ~~said Nirup~~ since was sent to Thimmappi also and in this it is stated that 5 candies of 2nd class sandalwood is to be supplied annually for God's use (ಪ್ರತಿ ವರ್ಷ ಅಲ್ಲಿಗೆ ಕೊಡಬೇಕು).

No other details are given.

B. Ramaswamaiya, Esqr., B.A., B.L.,
Secretary to the Government of Mysore,
General Department.

Sir,

With reference to Revenue Secretary's letter No. J.31/Pol 109-20-1 dated the 4th July 1921 about the steps for the prevention of the smuggling of sandlewood from the State, I have the honor to state that, as directed therein, the Conservator of Forests, the Muzrai Superintendent and I met in the Conservator's Office on the 23rd July 1921 and thoroughly discussed the matter. Our recommendations will be clear from the enclosed copy of the Conservator's letter and memorandum. The Conservator has given the cost of the Forest Establishment recommended.

2. The Police Establishment recommended for the 5 Outposts at the 5 outlets at one Duffedar and 3 constables for each outpost comes up to 5 Duffedars and 15 constables; whose cost including the cost of clothing and equipment works up to Rs. 351- -3 per mensem as per details noted in in the margin. In consideration of the unhealthiness of the localities, where these men are required to live, I propose a small local allowance of Rs 4 for each Duffedar and Rs. 2 for each constable and this comes to Rs 50/- per mensem; thus making a total of Rs. 401- -3 per mensem or Rs.4818-15-9 per annum. I request that early sanction of Government may kindly be obtained to my proposal.

Pay of 5 Duffedars @ an average of Rs 13 each	3- -0

1. In pursuance of the Revenue Secretary's letter No.J.31/ Pol 109-20-11 dated 4th July 1921 to the Inspector General of Police in Mysore, a meeting was held in the Office of the Conservator of Forests on the 23rd July 1921.

2. The following Officers were present:---

1. Mr. A . Subrahmanya Iyer, B.A., Inspector General of Police.
2. " T.E.Jayarama Iyer,B.A.,B.L., Muzrai Superintendent
3. " B.V.Ramaengar, B.A.,Offg. Conservator of Forests.

3. Reported dated 10th May 1921 from Mr. C. Krishna Rao, District Superintendent of Police, Shimoga, on the subject of smuggling of sandalwood embodying the results of his exhaustive investigations in Bombay and Sounth Canara District was read and the following points raised therein were taken up for discussion:

1. Misuse of sandalwood supplied to the Udapi Mutts and other Muzrai Institutions for temple use.
2. The existence of more than 20 Stills for sandal oil Distillation within a distance of ten miles from the Frontier and the smuggling of wood from the Mysore Forests to feed these Stills.

4. With a view to remedy these evils, the following measures were proposed and accepted by the Members unanimously.

Misuse of Sandlewood-- Ample scope for misuse of the wood supplied to the Mutt is afforded by the untimely and irregular supply of wood. It was agreed that the adoption of the following remedial measures would effectively put an end to such misuse.-

(a) The Muzrai Institutions should be required to apply

2

trees above 18" in girth within a five

2

for and take delivery of the wood before the end of February each year(just after the commencement of the Pariyayam in the case of Udapi),failing which the supply for that year should lapse to Government.

(b) Disposal of such wood by sale should be prohibited.

(c) The billets to be issued should be in small readily grindable sizes(18" in length) with Koti Stamp at each end.

(d) The institutions should be required to maintain accounts to show the receipts and disposals of such billets.

(e) The accounts so maintained as well as the stock be subjected for the inspection of the Jamabandi Officers.

Smuggling of sandalwood from the Mysore Forests:-- The wood is smuggled mostly for distillation purpose and the Stills are situated generally within three to ten miles of the Mysore Frontier just across the Frontier in the reserved, unreserved or even private Forests and the Ghaut paths are said to lead to these Stills direct without there being any necessity to pass through inhabited villages. The Mysore Forest areas exploited by the smugglers, as the enquiry goes to show, do not extend beyond ten miles of the ~~XXXX~~ Frontier.

It was agreed that the adoption of the following measures were necessary to effectively put an end to sandlewood smuggling.

(a) Establishment of Out-Posts at the five outlets viz,the Ultha Ghaut, the Agumbe Ghaut, the Tura Ghaut, the Mallu Ghaut; and the Bhagvati Ghaut with a detective staff consisting of one Officer and three constables.

(b) Employment of a special Forest Staff consisting of two Foresters and one Guard for each of the Taluks of Nagar Tirthahalli, Koppa and Mudigere, for enumerating sandal trees above 18" in girth within a five mile margin from

the Frontier for closely supervising this area and for co-operating with the Police Staff in putting down smuggling

(c) The personnel of the Forest and Police Staff to consist of men not having any interest in the Taluk.

(d) So far as Kolar District is concerned, it was resolved that there was no use of a Patrol staff, since there was no recognised pathways along which the wood was smuggled. Only enumeration of all sandal trees in a strip of about five miles along the Frontier Taluks of Malur Bowringpet, Mulbagal and Bagepalli was recommended. A special staff of two Foresters and 8 Guards may be engaged for two years to complete this work.

5. In addition to the above the adoption of the following general measures were also deemed to be necessary:---

(a) An annual grant of Rs. 500/- in order to enlist the Co-operation of outsiders and to reward their services for giving information and for catching smugglers and Rs. 250/- for secret service.

(b) Constant meeting and discussion on subjects of mutual interest by the Forest Officers of the State with those of the Frontier Districts at convenient places on the Frontier. The Officers of the Police Department have been now enjoying this facility.

(c) The authorities of the Bringere Jahagir should be required to dispose of their sandalwood either to the Sandal Oil Factory or to Bombay Merchants and to none else.

(d) The Magistracy be directed to dispose of sandal cases

cases filed in their Courts with as little delay as possible.

(d) Tardy disposal of these cases has been the cause of culprits escaping justice in many instances owing to the disappearance of the evidence due to lapse of time, transfer of officers responsible for the investigation of the cases, and the difficulty of retaining witnesses for an indefinate time.

Sir,

With reference to your letter No: 4241/Muz.389-20-6, dated 30th May 1921, calling for a report as to how Sandalwood, given to Sri Krishna Devaru temple at Udipi in South Canara came to be sold to private persons, I have the honour to state that the Sub Division Officer, Shimoga was asked to institute enquiries into the matter during his visit to Udipi in connection with the annual inspection of the temple, jewels. He reports that owing to non receipt of the grant in time, the previous Swami had to borrow or purchase the quantities of sandal wood required for the daily services in the temple from local merchants and make adjustments later on, after receipt of the grant from the State. Vide: copy of Sub Division Officer's report herein enclosed. The explanation may be accepted.

2. Arrangements will be made in future for the issue of the wood in time in December or January which will obviate the necessity for any of the presiding Swami to borrow from local merchants. It will be noted that the Sub Division Officer is of opinion that the quantity now granted to the temple, is not

Letter No: H.C.584/Rev.21-22, dated 22nd April 1922, from the Sub Division Officer, Shimoga, to the Deputy Commissioner

"""""""""""

As personally instructed, I made enquiries about the alleged sale of sandal wood granted to Sri Krishna Devaru temple at Udipi during my stay there on the 13th, 14th and 15th instants. The Agent of the previous Paryaya Swami said that as the sandal wood grant of the Mysore Government is not received in time the sandal wood required is either borrowed or purchased from merchants and others. After the Mysore Government supply of sandal wood is received the loan is returned to the merchants. This accounts for the Mysore sandal wood being found in possession of private persons.

All the Swamis said that if the sandal wood grant were to be given to them before the beginning of January there will be no necessity for any of the Swamis either to borrow or buy and there will be no room for the Mysore sandal wood reaching the hands of private persons through the temple authorities. For instance the previous Paryaya Swami has not been given one year's sandal wood grant. The present Paryaya Swami has been managing from January without the Mysore Government sandal wood.

My enquiries went to show that the present grant is not in excess of the quantity required for the temple.

VII. SANDALWOOD GRANTS.

1. Old Orders on the Subject.

"The sandalwood conservancy was first introduced by Hyder Ali in Mysore and enforced by Tippu Sultan, and the article has become a regular State monopoly since Dewan Poornaiha's administration. The privilege of felling sandal trees having thus been withdrawn, such of the institutions as applied for permission, obtained Firups or grants sanctioning the payment of so much in kind, free of cost, as was required for their use. Hence, the origin of these grants. Inams in sandal were not granted for personal benefit nor could the institutions sell the article or otherwise make use of it except
